LAB 5

This week we will be building on the site we have constructed by adding a table to your service page (or similar page).

The table must have a minimum of Six rows.

This week grading criteria:

1- Add a table to your service page (or similar page).

2- The table must have at least 6 columns and 10 rows.

3- Your table must have a header and footer.

4- Your table must be responsive on a screen size 470px, as opposed to over that size.

5- Must use a type of Figcaption or Caption To identify the table.

6 Table must have at least a 1px Solid border

7 – Table wording and information must be relevant to your bicycle shop ie. Bike info, not arbitrary information.

Good luck!

You will get 1-5 Points for each of the 6 categories above!

5 – points - Meets all requirements, and last labs issues are fixed.

4 – points - All elements are there but needs work.

3 – points - Some elements are there but needs work, issues from last lab are not fixed

2 – points – Many elements missing, a few are there, and a few things have been fixed.

1 – point – Only a small amount of work is done, and nothing from the last lab is fixed.
